

Brussels Invest & Export, Building new perspectives

Brussels Invest & Export is the foreign trade and foreign investments service of the Brussels Regional Public Service.

Officially launched on the 30th of May 2011, Brussels Invest & Export aims to promote the internationalisation of the Brussels economy.

Our export services

In Brussels, [our teams](#) of project managers and advisors devote their expertise to export projects relating to Brussels goods and services. They help companies to find commercial, legal and regulatory information and also provide them with information about the possibility of obtaining [funding](#) for the costs of their international expansion.

Abroad, we have a [network of almost 95 economic and commercial attachés](#) on every continent. They are genuine intermediaries working on the ground on behalf of Brussels companies.

Local teams and attachés posted abroad combine forces to carry out around a hundred [promotional events relating to Brussels exports](#) every year, both in Belgium and around the world.

Attracting foreign investments

Our economic and commercial attachés and consultants canvass foreign companies interested in setting up operations in Belgium. They promote Brussels as a strategic hub for business activities in Belgium, the Benelux and Europe.

To help these foreign companies evaluate the suitability of setting up in Brussels, we provide a "[Welcome package](#)" which includes an equipped workspace for a 3-month trial period combined with tailored support and access to our experts.
